PROFESSIONAL SUMMARY

Computer Engineering graduate with hands-on experience in software development, embedded systems, computer vision, and system integration. Developed web-based management systems and IoT applications using Python, SQL, JavaScript, Raspberry Pi, and machine learning technologies. Committed to continuous professional development by actively pursuing certifications in IT support, systems administration, networking, and cybersecurity to strengthen technical expertise and stay current with industry best practices.

EDUCATION

EULOGIO “AMANG” RODRIGUEZ INSTITUTE OF SCIENCE AND TECHNOLOGY

2022 – 2026

Bachelor of Science in Computer Engineering

TECHNOLOGICAL INSTITUTE OF THE PHILIPPINES

2019 - 2022

*Bachelor of Science in Computer Engineering
Science, Technology, Engineering, and Mathematics*

WORK EXPERIENCE

QUIKZLE MARKETING CORP.

July 2025 – September 2025

IT Intern

- Provided hardware/software troubleshooting, network support, and technical assistance for end users.
- Developed and deployed systems for the company (Leave System Management, Item Tracker).
- Supported workstation setup, software installation, and daily IT operations under the IT Supervisor.

ACADEMIC PROJECT

CAPSTONE PROJECT (PAWTECT)

2026

- Developed the front-end and back-end of PAWTECT, a Flask-based dog registration and monitoring system using **Python, SQL, HTML, CSS, and JavaScript**.
- Integrated Raspberry Pi and computer vision technologies for automated dog detection and identification.

SMART TOUCH MOUSE

2025

- Designed and developed a prototype mouse by integrating a recycled laptop touchpad into an old optical mouse, enabling tap, swipe, and gesture controls.

BARANGAY POPULATION CENSUS SYSTEM

2024

- Developed a Python and SQL-based census system to digitize and organize resident records.

CERTIFICATION

NATIONAL CERTIFICATE II - COMPUTER SYSTEMS SERVICING

issued on 2024

GOOGLE TECHNICAL SUPPORT FUNDAMENTALS

issued on 2026

GOOGLE AI PROFESSIONAL

issued on 2026

ADDITIONAL

Knowledge: Embedded Systems, SolidWorks and AutoCAD Designs, Computer Network and Security, Computer Systems Servicing, Machine Learning, Microprocessor, Computer Numerical Control (CNC)

Technical Skills: Programming, Software & Hardware Troubleshooting, Network Configuration, Management and Security.

Attitude: Willing to Learn, Critical Thinker, Problem Solver, Reliable and Committed, Team Oriented, Strategic, Fast Learner

Language: Native in Filipino, Work Proficient in English
